

SEPTIC DISPOSAL POLICY

The Town of Sedgwick will pay the prevailing local rate per gallon toward documented disposal of the contents of each septic tank once in any given fiscal year.

We will not participate in pumping out grease traps. Nor will we pay for The pumping of any other form of waste. That will be done at the property owner's expense. The town will only be responsible for up to 1000 gallons of septic sludge.

This policy will take effect on July 1, 2013. This policy will be reviewed once each year.
